3 States

72+ Districts

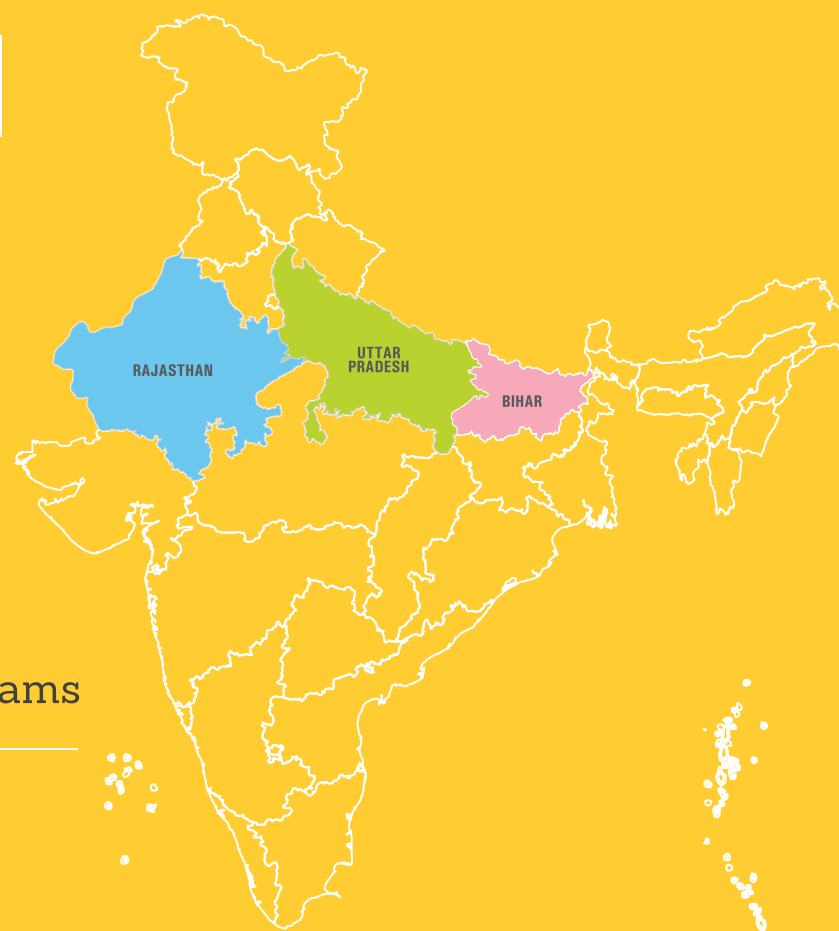

350+ Team Members

750+ Public Sector
Facilities

39 Clinical Outreach Teams

7 Mini-Clinical
Outreach Teams

6 Clinics

Headquartered in New Delhi, we work in states and districts with a high unmet need for family planning and a high fertility rate. Currently, we operate in the states of Rajasthan, Uttar Pradesh and Bihar delivering services in 750+ public sector facilities. The locations, where we provide our services, are often the most difficult to reach.

RECOGNITION AND AWARDS

Recipient of the 'Healers of India - Best NGO in Healthcare Award' in 2017, an initiative of Network 18 and Apollo Hospitals Group

Conferred the 'FOGSI Achievement Award' for distinguished service in the field of women and child health by Federation of Obstetric and Gynaecological Societies of India in 2017

Support us

Our work enables women and men to choose when and how many children they want and to improve the quality of life for themselves and their families. Join us in creating a world where every child is wanted and every woman is healthy.

FRHS INDIA
Children by choice, not chance

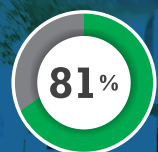

Foundation for
Reproductive
Health Services India
(FRHS India)

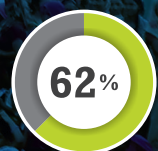

OUR CLIENTS AND THEIR EXPERIENCES

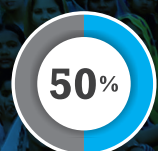

Clients who were **satisfied** with their overall experience

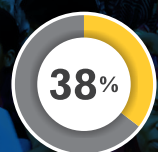

Clients who believe **FRHS India** exceeded their expectations

Clients who have never used **Family Planning**

Clients who did not have **another provider available** to get their method

Clients living under **extreme poverty**

ABOUT FRHS India

Foundation for Reproductive Health Services India (FRHS India) is an affiliate of Marie Stopes International (MSI), which is a global organisation providing personalised contraception and safe abortion services to women and girls across 37 countries. Working since 2009, FRHS India has been contributing towards enabling women and men to exercise their sexual and reproductive rights and choices by providing information and services in the states of Bihar, Uttar Pradesh and Rajasthan. We are the country's largest provider of clinical family planning services in the private and non-government sector and have been recognised for our quality of care. We are client-focused and result-driven, working towards driving the social and economic development of women and families in the country.

OUR VALUES

Mission-driven

With unwavering commitment, we exist to empower women and men to have 'Children by Choice, not Chance'.

Client-centered

We are passionate about our clients and dedicate our efforts to deliver services to the highest possible quality.

Accountable

We are accountable for our actions and take responsibility for everything we do to ensure long-term sustainability and increased impact.

Courageous

We recruit and nurture talented, passionate and brave people, who have the courage to push boundaries, make tough decisions and challenge others in line with our mission.

STORIES FROM THE GROUND

Going Beyond the Call of Duty

Our women colleagues often encounter patriarchal notions and mindsets while delivering services in rural areas. Tanuja, one of our Mini-COT counsellors, experiences this every day while reaching out to the most vulnerable and neglected communities in Bihar.

She once met a client who wanted to space her next pregnancy. Tanuja provided her with the required information and counselling and the client chose to have an Intra Uterine Contraceptive Device (IUD) inserted. Subsequently, Tanuja was confronted by the client's husband who demanded to have it removed. Despite her best efforts, Tanuja could not convince the client's husband. Tanuja didn't lose hope. She started visiting the family

regularly and finally made the husband realise the benefits of family planning. Tanuja's grit and determination helped the client get the contraception she wanted. She has become a 'figure of hope and courage' among her team members, regularly going beyond the call of duty to ensure the delivery of crucial family planning services.

Male-engagement in Family Planning

Ahmed, a rickshaw puller from Sitamarhi district of Bihar had quite a dramatic day when he got his Non Scalpel Vasectomy (NSV) done. He came riding his rickshaw, much to the worry of the COT team, as they did not want him to ply the rickshaw on his return after the services. However, after the procedure, he did not feel a thing. In fact, he was ready to sit on his rickshaw after the stipulated post-operative time and after the team had given him the clearance for discharge. Not only did he ply his vehicle but he also motivated and got two more of his friends within the next 30 minutes to the Community Health Centre (CHC).

MESSAGE OF CEO

“ Since its inception, FRHS India has been bridging the access gaps in sexual and reproductive healthcare, enabling women to make informed choices about their reproductive goals. In 2020, we aim to reach out to over 1.8 lakh women and men with quality family planning information and services. For us, our clients are at the centre of everything we do. Their choice, comfort and safety is what guides our work. From a small beginning in Alwar district of Rajasthan in 2010, we have now expanded our presence to 72+ districts, covering a population of over 140 million in the states of Bihar, Rajasthan and Uttar Pradesh. In our efforts to advance our mission – 'Children by Choice, not Chance', we have received unstinted support from several partners and stakeholders. I would like to extend my sincere gratitude to each one of them. Their support strengthens our efforts to reach out to the most socially, economically and geographically marginalised communities with information and high quality, affordable sexual and reproductive health services. Today, we are a team of over 380 and I would like to thank each of my teammates, who work untiringly to deliver our mission. ”

V.S. Chandrashekar
CEO, FRHS India

OUR MISSION

*Children by Choice,
not Chance*

To empower individuals and families to make healthy choices through improved access to information and high quality, affordable sexual and reproductive health services.

OUR SERVICE DELIVERY MODELS

Clinical Outreach Team (COT)

A fully staffed and equipped team providing a full range (spacing, long-acting reversible and permanent methods) of family planning choices to clients in public sector sites.

Mini-Clinical Outreach Team (Mini-COT)

Reaching out to young adults closer to where they live and providing them with information, counselling and family planning services (spacing and long-acting reversible methods).

Marie Stopes Clinic

A one-stop facility offering an entire range of high quality family planning and reproductive health services in Ajmer, Jaipur, Banswara, Bareilly, Gaya and Saharsa.

Public Sector Support (PSS)

Improving choices and quality of family planning services for clients in identified public sector sites in Rajasthan.

ADVOCACY

FRHS India hosts the Pratigya Campaign for Gender Equality and Safe Abortion, a network of over 110 individuals and organisations advocating for women's access to safe abortion services in India. The coalition has been actively engaging with the government, media, medical and legal fraternity to ensure that women's right to safe abortion is protected in India.
