

Foundation for Reproductive Health Services India (FRHS India) initiated its operations in the state of Uttar Pradesh in 2013 and has been working closely with the Government of Uttar Pradesh since then. Our endeavour is to improve access to affordable high quality sexual and reproductive health services

among socially and economically vulnerable populations in the state.

Starting with one district in 2013, as of today, we provide a range of family planning services in 178 public sector sites in 30 districts of the state covering a population of over 70 million. In our

first year, we served 8,535 clients and in 2019, we served 29,826 clients. Since 2015, FRHS India has witnessed a compounded annual growth rate of 36% in Uttar Pradesh. We provide services through nine Clinical Outreach Teams and one Clinic in Uttar Pradesh.

## Sexual and Reproductive Health Indicators

### Total Fertility Rate

Uttar Pradesh	>	National
<b>2.7</b>		<b>2.2</b>

### Total Unmet Need for Contraceptives

(unmet need for spacing: 6.8% and unmet need for limiting: 11.3%)

Uttar Pradesh	>	National
<b>18.1%</b>		<b>12.9%</b>
